Over the past year, many infrastructure upgrades have emerged as worthwhile candidates for FPB to pursue. Ongoing financial feasibility and project cost studies will yield different improvement options that can be undertaken over the coming decade(s).

Realistically prioritizing among upgrade options ultimately depends on project cost & urgency, campaign funds to be raised, and our community values.

To assess FPB's priorities & values, decarbonization consulting firm GreenerU will run a workshop from 11:30 - 1 pm on Tues Dec 2 in Room 204. Input will be sought from church committees and community members to guide capital campaign decision-making. All are welcome to join the workshop either in-person (with bagels!) or via Zoom:

Time: Dec 2, 2025 11:30 AM Eastern Time
